

## C25 Definite purpose contactors

The more you know ...  
The more you value your options

### Features

- Eaton DP contactors are direct replacements to Siemens DP contactors
- Mounting holes align to 60A, eliminating re-tapping and re-design
- Eaton terminal sizes accommodate same or larger wire sizes for majority of contactor sizes
- Eaton offers completely encased design impervious to dust and other environmental elements
- Eaton 50A DP contactors are 15% smaller than Siemens 50A DP contactors
- Eaton contactors are RoHS compliant to 75A
